

REFERENTIAL RELATIVITY THEORY (RRT)

Automated Audit Report

SCIENTIFIC AUDIT - REDSHIFT

PREDICTIVE REPORT (STRICT BLIND AUDIT):

- 1. PHYSICAL CHALLENGE: Standard Model needs invisible profile adjustments. RRT Engine locked the total mass as an absolute spatial fluid limit.
 - 2. RRT PREDICTION: Sweeping cosmic fabric based on Beta refraction, the equation mathematically converged and predicts the source galaxy is at $z_S = 0.3550$.
- RESULT: Pure algorithmic convergence, isolated from Dark Matter.
