

# REFERENTIAL RELATIVITY THEORY (RRT)

Automated Audit Report

## SCIENTIFIC AUDIT - REDSHIFT

### PREDICTIVE REPORT (STRICT BLIND AUDIT):

1. MASS INTEGRATION: The system rigorously calculated the enclosed mass within the Einstein Ring cylinder using the Effective Radius ( $R_e$ ). No ad hoc fine-tuning was allowed.
2. RRT PREDICTION: Sweeping cosmic fabric based on Beta refraction, the equation mathematically predicts the source galaxy is at  $z_S = 0.8800$ .

RESULT: Converged and isolated from Dark Matter.
